## Chapter 4

*The side text on this manifold is honestly horrible for typesetting... whatever. 3829 decided he'd proofread this series, so apparently we're uploading this on Fridays. If I do 2 or 1 chapters a week, is not going to be consistant. Hell, I'll do as many as I can is more likely. That means I might not even post. But, that being said, there is an active effort by Jem and I to make it to raw (Ch20 at time of posting). So, yea. We'll see how that goes.*
